

K-Love provides a public service by informing me of local Church events taking place in my community. They promote good moral values by the type of music they play and the messages that they broadcast. This has been a very positive impact on my four young boys and my entire family. I think it would be a real shame to take K-Love off the air by allowing a LPFM broadcast to take its place. This is a very positive and encouraging radio station that the whole family can listen to. I do not have to worry what my kids may hear when listening to K-Love.
